

MACAN-VINZELLES

“Les Morandes”

FACTS ON THE DOMAINE

Established in 1986
AOCs: Macon, Pouilly Loche, Bourgogne, Cremant de Bourgogne, Bourgogne Aligote
Varieties: Chardonnay, Aligote, Pinot Noir, Gamay
Viticulture: Biodynamic (AB and Demeter)
Size: 11.5 hectares
Production: Up to 5,000 cases annually
Terroir: Clay with broken down limestone (Argile a calcaire)

We have always emphasized the quality of work and careful relationship to our land, to our vineyards and our clients for optimum results. So naturally we have turned to practices under the Biodynamics - with reference to Demeter, who supports our approach.

Celine and Laurent Tripoz

We cultivate an area of 11.5 hectares spread around the village of Loches (Macon). Since 2001, we have removed any chemical herbicide. The area is certified by Ecocert Organic Agriculture (AB) as well as biodynamic (Demeter) for 2006 harvest.

Detailed Description

From a Chardonnay parcel Celine and Laurent planted early on, which has never seen any herbicides or pesticides. Also raised entirely in stainless steel, this wine is a more complex and deeper version of the Macon Loché.

Tips

You will discover finesse, balance and harmony in serving at 12/14 ° while taking care to open a few minutes before serving.
