

# reyneke ORGANIC

## Reyneke Vinehugger White 2018

### Winemakers Notes

The 100% Chenin Blanc grapes are sourced from beautiful organic vineyards situated 20 miles inland from the Atlantic ocean, on the valley floor of a hot and semi-arid region. The vines are planted in loamy soils, which add a great flavor profile to the Chenin Blanc grapes. The grapes are bunch sorted and destemmed and naturally fermented, 80% in stainless steel and 20% in matured in seasoned oak barrels. After six months further aging on the lees, the *assemblage* is assembled and bottled.

### Tasting Notes

Apricot and white peach are apparent on the nose, with notes of mandarin peel and hints of honey-comb that follow after. The palate is fresh and vibrant showing flavors of orange zest, and some nutty flavors. A well-balanced and rounded wine that can be drunk now until 2021.
